TURNING 65? OVER 65? UNDER 65 WITH DISABILITIES?

If you feel trapped in the maze of Medicare health insurance rules and regulations and unsure of the right path for you or a loved one, there is help available.

After the success of our OSHIIP (Ohio Senior Health Insurance Information Program) consultations last fall, we are excited to be offering **two days of free, private OSHIIP consultations**. Geshher will be hosting two experts in Medicare to answer your questions.

OCTOBER 10th

JIM AUST

OSHIIP Community Liaison

“I was practicing Medicine for many years but I still learnt so much from my consultation with Jim Aust. I wish I had known that earlier! „

If you are turning 65, or are already 65, this is a great opportunity to explore your options. Please note that these services are available to all regardless of income.
